

Body Language Featuring Scarlett

Written by Khalid "Bless" Bey | Editor In Chief

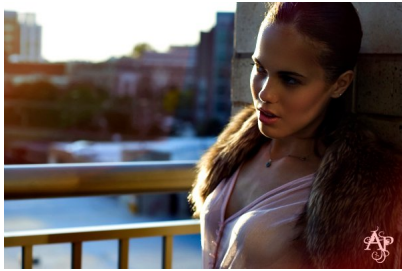

Words can be tainted. Body language is always pure. A person only needs to know what to look for. When you're in the presence of someone that you're attracted to... the atmosphere changes completely. Your sensitivity levels increase, the slightest change in the air raises your attention. A crooked glance could freeze you with desire; a touch could momentarily paralyze you with hope, an exposed thigh presents a glimpse of the divine. Time doesn't stand still but it slows to a crawl, everything instantly rich with hidden meaning. The uncertainty is hell but heaven is the possibility. Love Life. Live Love. Angels Playpen.
